What are family sponsorships?

Little Helping Hands family sponsors are crucial to the success of our organization. They believe in our mission and are dedicated to supporting us through participation and an annual financial commitment. Family sponsors receive mission-driven benefits such as early access to our Activity Calendar or specialized programming.

Why become a family sponsor?

Because of the sustaining gifts provided by our family sponsor community, we are able to

- enhance and innovate our programs to keep Austin children on a service pathway from early childhood through their teen years.
- maintain and grow our programs for your family as well as other families in the Austin area.
- support 70+ other nonprofits/organizations annually in the Austin community by providing consistent and dependable family volunteers to help further their missions.
- educate Austin youth about the value of giving back, developing generations of community-minded leaders and citizens for years to come.
